

I am sick and tired of having my family's dinner rudely disrupted nearly EVERY evening by some telemarketer trying to sell me long distance services, windshield chip repairs or credit cards. Sometimes two or three calls per night. Enough is enough. Some do not even honor "do not call" requests, and call you again the following month. Many of the calls are pre-recorded, which is even more annoying. I strongly support the idea of a national "do not call" list, and there should be NO exceptions given. Do not call me and DO NOT CALL - ANYBODY. Thank you.
